ALTERNATIVE DIPLOMA PROGRAM – FALL/WINTER 2023
603-357-0088

DEADLINE to REGISTER is FRIDAY, SEPTEMBER 8, 2023 !!

US HISTORY

Learn about events and people from the time of Civil War Reconstruction through this 21st century. We'll use maps, reading exercises, discussion, analysis and historical sources to understand such topics as the progressive movement, immigration, the World Wars, the Great Depression, Civil Rights, the Cold War, Vietnam, and more recent conflicts. Balance of work completed independently, some virtually.

(1 U.S. History Credit)

LOCAL ECOSYSTEMS

Learn more about the relationships between animals and plants and their environment and explore some of our local ecosystems: forest, stream, pond, and field. In addition to learning about the fundamental principles of ecological science, you will engage in hands-on research projects and activities in the classroom and outdoors. Weeks 2-6 will meet at local parks and natural areas (weather dependent).

(1 Science OR 1 Elective Credit)

MATH OPTIONS

This class is organized so that students may practice basic math and pre-algebraic concepts OR further skills in Algebra and Statistics. The first level includes properties of operations: reading and interpreting data; fractions, decimals, and percent; negative numbers; the coordinate plane; and ratios, rates and proportion. The second level includes equations and geometry; systems of equations; expressions with exponents; exponential growth and decay equations; quadratic and polynomials; irrational numbers; and statistics and probability. Students will work online in and out of class; there will be small group activities for students working on the same topic.

(1 Math OR 1 Elective Credit)

AMERICAN WARS: PERSPECTIVES THROUGH LITERATURE & FILM

From the time when America was just a concept, Americans have had to fight to protect our country, to protect our freedom, to protect our way of life, and sometimes to protect the world. This course looks at our wars both historically and through the lens of our art. Literature, film, and music all have portrayed our wars in a variety of ways. Sometimes realistic, sometimes romanticized, sometimes propagandized, the way Americans have perceived our wars has been heavily influenced by the artists who have portrayed them. This course involves reading, writing, discussion, and viewing both for information and for analysis. Balance of work completed independently, some virtually.

(1 English OR 1 Social Studies credit)
